About Us

From a Small Herbal Business to a Trusted Manufacturing Partner

Founded in **1977,** Sari Tani Desa began its journey as a small herbal business with a vision to develop and provide quality herbal products. From its humble beginnings, the company gradually expanded its capabilities and experience within the herbal and traditional product industry.

Over the years, Sari Tani Desa has evolved from producing its own herbal products into an established **contract manufacturing and product development partner**, serving customers with a growing range of OEM manufacturing and technical services.

As the company's expertise developed, Sari Tani Desa expanded its services to include **herbal formulation, product development, packaging consultation, product registration, contract research and contract manufacturing**. This growth was driven by a commitment to understand the specific needs of customers and provide practical solutions throughout the product development journey.

With decades of experience in the herbal industry, the company has developed and customised various formulations according to customer requirements, product specifications, production timelines and applicable **National Pharmaceutical Regulatory Agency (NPRA)** requirements. This experience has become one of the company's key strengths in supporting customers who are looking to transform their product concepts into commercially viable products.

Sari Tani Desa has also continued to invest in improving its manufacturing capabilities, processes and technology. The company operates with a strong emphasis on quality control and continuously reviews its capabilities and production capacity to ensure that products are manufactured consistently and efficiently.

Today, Sari Tani Desa stands as a **GMP Certified and HALAL Certified manufacturer**, offering a broader range of manufacturing and support services for herbal, traditional, health, cosmetic and personal care products. From raw material processing and herbal formulation to contract manufacturing, packaging and product development support, the company continues to build upon the knowledge and experience accumulated throughout its long-standing journey.

More than four decades after its establishment, Sari Tani Desa remains committed to its founding spirit of **quality, knowledge, trust and continuous improvement** — while embracing modern manufacturing practices and evolving with the needs of today's market.

1977 — 40+ Years of Experience — Today

From a small herbal business to a comprehensive OEM and ODM manufacturing partner, **Sari Tani Desa continues to grow with the same commitment: helping customers turn their ideas into quality products.**
